

MTSS Reimagined:

*Cost-Effective, Coherent, and Customized
For Superintendents and Cabinet Leaders Ready to Make MTSS Work*

The Problem	The EduSolve Solution
<p>Districts are spending millions on interventions that:</p> <ul style="list-style-type: none">● Are underutilized at the school level● Lack coordination across tiers● Deliver unclear or uneven student outcomes● Drain budgets with little measurable return	<p>We help you design a districtwide MTSS system that is:</p> <ul style="list-style-type: none">● Strategically aligned to your goals● Cohesively structured across schools and tiers● Cost-effective—clients save an average of \$500,000 by de-implementing underperforming interventions● Customized to your district's size, needs, and capacity

Our Methodology

Systems	We map and streamline how interventions, roles, and funding structures align—ensuring policies, partner engagement, and resources all support a coherent MTSS.
Culture	We build leadership team clarity, communication protocols, and shared expectations across schools to ensure ownership and sustainability.
Instruction	We ensure intervention practices, progress monitoring, and tiered supports are evidence-based, data-informed, and customized for your student population.
People	We develop professional learning plans, coaching structures, and implementation teams that grow staff capacity and use fidelity and outcome data to drive continuous improvement.

What You Gain

- A clear MTSS framework that school teams actually understand and use
- Elimination of cost sinkholes—interventions that don't work or aren't used
- Cross-department alignment that reduces duplication and friction
- A roadmap to go from confusion to clarity in under 90 days
